Free Standing Light Post & Planter Light Post

Step 1.

Screw post bottom section into post top section.

Step 2.

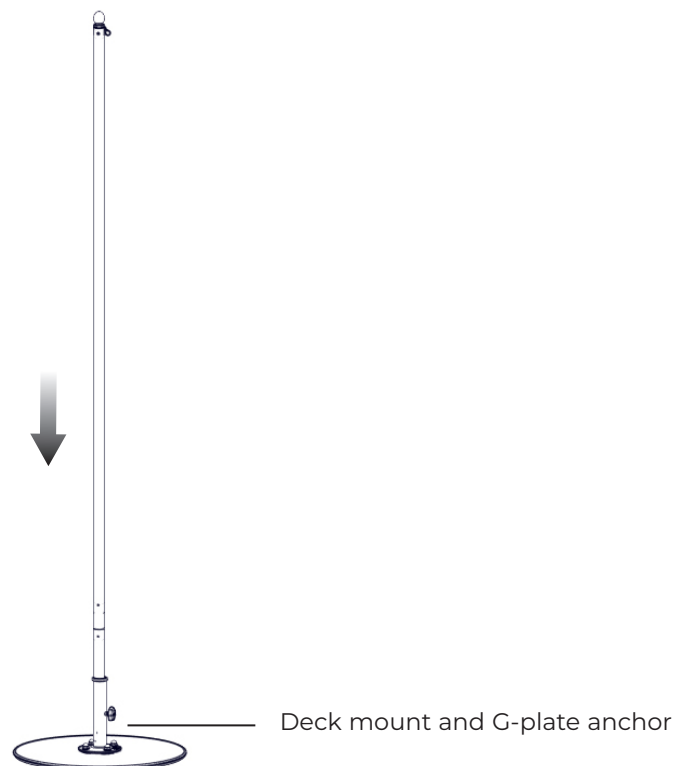

Remove preinstalled nut and washer. Slide post hook, washer and nut onto post screw. Turn Acorn to secure and close.

IF APPLICABLE FOR STAND ALONE

Step 3.

Insert light post into deck mount and use 40lb G-plate anchor.

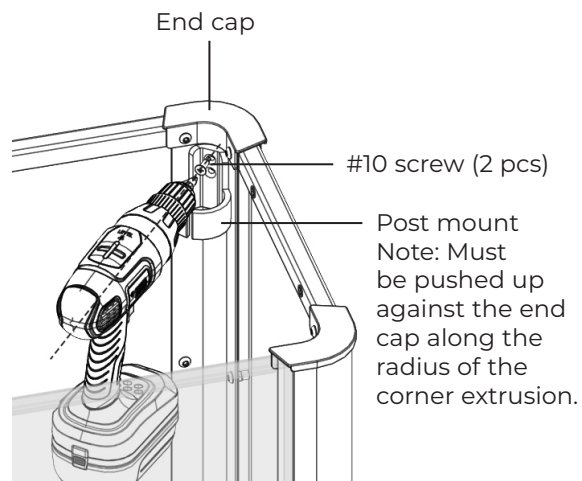

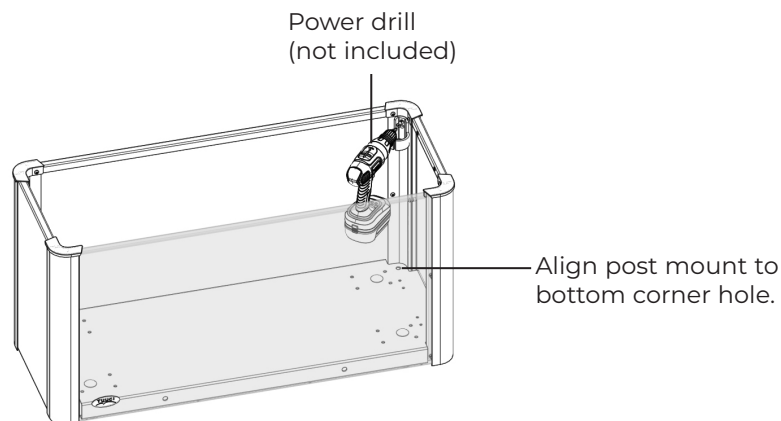

Free Standing Light Post & Planter Light Post

IF APPLICABLE FOR PLANTERS

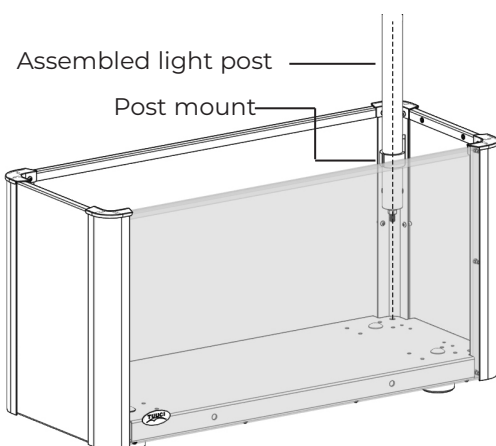

Step 3.

Install post mount to the top corner area of planter with #10 screw by using a power drill.

Step 4.

Slide assembled light post through post mount.

Step 5.

Secure assembled light post in place with nut and washer at the bottom as shown.
