SIKA-DESIGN

A PROUD TRADITION OF CRAFTSMANSHIP

Our passion for and understanding of rattan dates back decades. We have been around long enough to call ourselves Scandinavia's oldest producer of rattan and wicker furniture.

The story of our company begins in 1942, when Ankjær Andreassen produced the first batch of baskets, lamps, flower tables and other smaller interior items made of rush and willow. In the 1950's, Ankjær expanded his production to include a series of furniture made from rattan, and the company Sika-Design was firmly established.

The rattan was imported from the Far East, and Ankjær travelled there to purchase the rattan for his wicker makers in Denmark. During a trip in 1972, he was so impressed by the skilled wicker makers that he decided to establish a wicker furniture factory in Malaysia. Since then, the Far East has been essential to our production of furniture.

Today, we manufacture our furniture in our own factory in Indonesia. Ankjær's son, Knud Andreassen, took over the company in 1983, however Ankjær continued his daily "inspections" until his death in 1997. On my 10th birthday, my father allowed me to attend a fair where Sika-Design was exhibiting a series of rattan furniture.

On that day, I knew I wanted to be a part of his company, and my passion for rattan furniture began. Since 1996, my father and I have worked side by side bringing Sika-Design into the new century with great design, while never letting go of our strong heritage of great craftsmanship.

Sika-Design respects human rights and complies with the SA8000 standard for social accountability, and we demand the same commitment from our suppliers. Products from Sika-Design are developed and marketed in accordance with our management system for environment and social responsibility ISO 14001/2015 and SA8000/2014. Certified by DNV GL®.

AFFÄIRE

The Affaire collection is inspired by our own designs from the 1950's and the charming bistro chairs seen all over Paris. It is designed for upper end cafe's and restaurants.

We weave our Affaire chairs with the amazing ArtFibre which is available in a selection of colors which can be combined in numerous ways as custom design, and in the back of this brochure, you can find the selection we carry stock of in Denmark.

LOUISE ANDREASEN

3rd generation,
Sika-Design

3 GENERATIONS
WITH PASSION
FOR RATTAN

LOUISE ANDREASEN

(1971-)

Louise Andreassen is the 3rd generation to run Sika-Design. She has worked side by side with her father Knud since 1995 and took over the ownership of the company and role of CEO in 2015. Louise is very conscious about inheriting a special company with a strong company culture characterized by freedom with responsibility. She is determined to preserve and continue this culture created by her father and grandfather.

Louise has from a very young age been passionate about furniture production and interior design. Her strong footprint in the company has been insisting on creating furniture in the natural material rattan and educating the market and customers about its wonderful qualities. She loves to combine the light Scandinavian look with oriental details and materials. Louise adds a feminine touch to the decor and seeks to create a cosy ambience with her furniture.

KNUD ANDREASEN

(1948-)

Knud Andreassen took over his father's company in 1983. Over three decades, Knud has developed a strong worldwide distribution and made solid manufacturing partnerships in Indonesia and Malaysia. In 1989 he founded Sika Design's associated company Cane-line A/S and in 1991, he acquired the Danish competitor Horsnæs and merged it with Sika. Knud was a pioneer when he introduced the game changing material ArtFibre on the European market in the late 1990s.

Knud has always insisted on great comfort and strength when designing and producing furniture. Especially furniture designed for hospitality has been one of Knud's core focus areas. He has always had an eye for practical details such as making sure the chairs are stackable.

ANKJÆR ANDREASEN

(1911-1997)

Ankjær Andreassen established the company Sika Møbler in 1942. He was a true entrepreneur at heart and had previously run a hotel, created an entire housing area and arranged spectacular motorcycle races. He was a man full of ideas and imagination.

In the beginning Ankjær home produced wicker baskets and lampshades and small pieces of rattan furniture, but the business quickly grew and in 1951 he established a cane and rattan manufacturing company on Funen. In 1972, Ankjær went on a trip to the far east and when he returned, he had bought a piece of land and established a rattan furniture production in Malaysia which quickly grew to 150 men.

AFFAIRE

INSPIRED BY PARISIAN STYLE

Affaïre is designed for the upper end cafés, brasseries and restaurants in historical European cities and capitals all over the world.

Affaïre is an elegant choice for Riviéras and sidewalk cafés. Our handcrafted Affaïre café chairs, stools and tables bring you back to the atmosphere of Paris café life in the 1930's.

RATTAN AND ARTFIBRE

Affaïre is handcrafted rattan woven with ArtFibre. Rattan is a natural climbing plant that grows in the Indonesian rainforest. Rattan have been known to grow up to a hundred meters long. Rattan grows naturally without disturbing the existing structure and balance in the rainforest. Rattan is strong, lightweight, flexible, and durable.

ArtFibre is an artificial fibre made of dyed and hardwearing polyethylene. It can withstand the sun's burning UV-rays, heavy rain and even frost. ArtFibre is the material we use for the bindings and weaving of the seat and back of our Affaïre café furniture pieces.

The combination of natural rattan and ArtFibre provides flexibility, strength and optimal comfort.

AFFAÏRE COLLECTION USED OUTSIDE

Our Affaïre café chairs are made of raw natural sustainable rattan and can be used outside in covered areas but should not be exposed to rain, and should be stored inside during wintertime.

See our ALU Affaïre selection for outdoor use on page 22.

ALU AFFÄIRE

INSPIRED BY PARISIAN STYLE

ALU AFFÄIRE

The ALU Affaire collection is designs from our Affaire collection, where the natural rattan frame has been changed to an aluminium frame.

The aluminium frame is handbend using similar methods as when rattan is bend, and then powdercoated in our 3 options of colors: white, taupe or black.

The aluminium frame is then woven with our ArtFibre which is available in a selected variation of colors.

ArtFibre is an artificial fibre made of dyed and hardwearing polyethylene. It can withstand the sun's burning UV-rays, heavy rain and even frost. ArtFibre is the material we use for the bindings and weaving of the seat and back of our Affaire café furniture pieces.

The combination of powder coated aluminium and ArtFibre provides our furniture with strength and comfort, and furniture that can be used outdoor all year.
